6th International Encounter

„International encounter on good practices transfer for the ERN4mob”

Encounter objective:

To work on identifying concrete action lines and activities to be developed in the future by the ERN4mob network in order to ensure its sustainability and continuity.

The 6th International Encounter within the ERN4mob project took place in Slovakia. Encounter was organized by the project partner Zemplínske Hámre and was realized from 5th to 9th of July 2017. Encounter was attended by the representatives on behalf of all project partner as well as invited guests from local community.

Aim of the meeting was to discuss and present plans regarding the implementation and transfer of good practices into the local/regional realities of project partners. Project partners discussed possibilities of future cooperation and functioning of the network. Each of the partner stated their vision and possible points of cooperation for the future. Participants also attended a presentation by Asylum facility located in Humenné who described their functioning and activities for the asylum seekers.

Part of the agenda was also dedicated for putting together final conclusions for Pearl Tree as a dissemination platform. All of the project partners agreed on using this platform to share the results of the project and of the common work as a network. Platform will be published towards the end of project duration.

The program was realized in the premises of Zemplínske Hámre, but also in the city of Humenné. Both places provided a view into the rural life in Eastern Slovakia. Parts of the agenda were dedicated to getting to know regional historical and natural areas, as well as tasting traditional meals or learning traditional dances.

The next and last meeting will be in Vimianzo, Spain where the lead partner of the project will host a final conference where all the project results and findings will be presented.
